

# SOULBRIGADA

## Biography

SoulBrigada was founded in 2009 by the german artists & musicians Alex D. and Fabio V. With this project they want to pull down stereotyped thinking and musical barriers and present a wide range of various music. As the name SoulBrigada associates Soulmusic is obligatory for them but they're not limited to this genre – the main point is the SOUL in the music. Moving between Beats & Breaks, Global Grooves, Electronica, Disco & Rare Groove, the listener can always expect an exciting and versatile trip.

Over the years, they have been involved in many projects - regular club nights in Germany & Austria with illustrious international guest DJs, their own monthly radio show on the Swiss-based radio station GDS.FM or the organization of national record fairs in Germany and Austria.

Numerous DJ sets on festivals, clubs & radio stations take them across Europe to spread that SoulBrigada vision: from Portugal, France, Italy, Germany, Switzerland, Austria to Croatia, Bulgaria & Greece.

This passion has also led to music production, which has accumulated a considerable number of releases over the years. It all started in 2011 when their first production, a remix of a song by the 'Gilles Peterson Havana Cultura Band' was officially released on a limited & exclusive vinyl EP. Further releases followed on KAT45, Matasuna Records, Légère Recordings, Resense and Samosa Records. More releases will see the light of day in the near future.

In summer 2016 the own label Matasuna Records was launched, which is specialized in reissuing rare music from all over the world, but also doesn't disregard great contemporary music. The label has built up an excellent reputation among music connoisseurs over the years, so that many of the vinyl releases are already sold out.
